SOUTHWESTSOLUTIONSGROUP

Museum Storage Solutions

We offer a wide range of storage cabinets, racks, and shelving specifically designed to optimize your museum's storage footprint. Our storage solutions promote protection from light, dust, insects, rodents, and other factors that can cause irreparable damage to your collections.

Compact Shelving

High capacity compact storage systems organize and protect your historic collections, artifacts, and specimens while optimizing your valuable floor space.

Art & Painting Storage

Organize & protect your historic artwork and painting collections while saving valuable floor space with high capacity rolling and hanging art storage panels.

Garment Storage

Efficiently store & preserve hanging uniforms, costumes, and other priceless garment collections in space saving racks and cabinets.

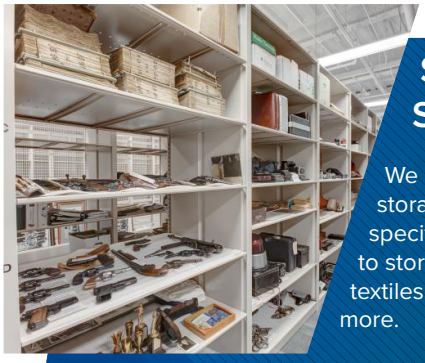

Museum Cabinets

Powder-coated air-tight cabinets protect stored specimens from off-gassing, water, dust, insects, and other damaging environmental factors.

Archival Box Shelving

Adjustable archival shelving is available in a wide variety of sizes to ensure safe, efficient storage for boxed collections of varying shapes and sizes.

Specialty Storage

We have a variety of specialty storage racks and shelf units specifically designed for difficult to store items such as rolls of textiles, spears, canoes, rifles, and more.
