SOUTHWESTSOLUTIONSGROUP

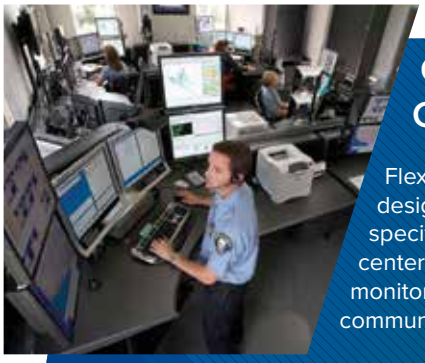

Public Safety Storage Solutions

Designing and planning efficient law enforcement facilities reduces construction costs and operating expenses while enhancing the security and productivity of officers, allowing them to better serve and protect.

High-Density Shelving

High density shelves are the most space-efficient property and evidence storage system available. The shelves condense to give you the greatest storage capacity in the least amount of floor space.

Command Center Consoles

Flexible and ergonomically designed console furniture is specifically intended for 911 call centers, dispatch, surveillance monitoring, and other vital 24/7 communication areas.

Evidence Intake Lockers

Temporarily store and protect deposited evidence in pass-through or non-pass-through lockers to ensure that the chain of custody remains intact.

Personal Gear Lockers

Heavy-duty welded ventilated lockers allow optimal air flow and drying of uniforms. The interiors are designed for the storage needs of officer gear, including charging of electronic devices.

Readiness Shelving

Heavy-duty adjustable steel shelving organizes and stores combat readiness gear such as uniforms, vests, helmets, and more so officers can respond quickly to emergencies.

Weapons Cabinets

Organize and secure your long arms, pistols, and other weapons to save space and prevent unauthorized access. Perforated doors provide ultimate security while allowing quick visual inventory.

SOUTHWESTSOLUTIONSGROUP

Public Safety Storage Solutions

Duty Bag Lockers

Secure vented lockers store heavy and bulky duty bags conveniently and securely while allowing them to be easily accessed by officers when they're needed.

Crime Lab Furniture

Designed specifically for crime labs to limit contamination of and protect the integrity of evidence. Modular lab casework allows you to move and modify your lab furniture on demand.

Compact Box Storage Racks

Store heavy and bulky record boxes and evidence on mobile compact racks, which condense into half the footprint of traditional shelving and free up your floorspace.

Wire Partitions

Wire partition fencing and cages have limitless configurations, heights, and options. These partitions provide visibility and ventilation while protecting and securing yourevidence, weapons, gear, and equipment.

Pistol Wall Lockers

Provide secure temporary storage for pistols, handguns, and other small firearms, weapons, and ammo with wall-mounted or sally port lockers.
